

Password Cracking & Credential Attack Suite

Security Audit Report

Date: 2026-03-26 03:09:26

Audit Summary:

Target_hash: 5e884898da28047151d0e56f8dc6292773603d0d6aabbdd62a11ef721d1542d8

Hash_type: SHA-256

Attack_type: dictionary

Status: Failed

Password_found: N/A

Recommendations:

- Use passwords with at least 12 characters.
- Include a mix of uppercase, lowercase, numbers, and symbols.
- Avoid common words or personal information in passwords.
- Use a password manager to store complex passwords.
- Enable multi-factor authentication (MFA) where possible.
