

Password Cracking & Credential Attack Suite

Security Audit Report

Date: 2026-03-26 03:10:39

Audit Summary:

Target_hash: 900150983cd24fb0d6963f7d28e17f72

Hash_type: MD5 / NTLM

Attack_type: brute_force

Status: Success

Password_found: abc

Strength_analysis:

- score: 0/4
- entropy: 14.1 bits
- crack_time: less than a second

Recommendations:

- Use passwords with at least 12 characters.
- Include a mix of uppercase, lowercase, numbers, and symbols.
- Avoid common words or personal information in passwords.
- Use a password manager to store complex passwords.
- Enable multi-factor authentication (MFA) where possible.
